ISAS Nagpur Chapter

Primary objective of Indian Society of Analytical Scientists (ISAS), founded in 1983, and its various regional chapters all over the nation, is the dissemination of multidisciplinary and interconnected areas of Analytical Science. The Society is continuously engaged in bridging the communication gap among the interdisciplinary sciences, technology, R&D & industrial organizations to sustain a high level of quality in their scientific pursuits. Unfortunately, during the present scenario of pandemic social distancing has become almost mandatory, webinars are only viable options to provide a nodal forum for effective co-ordination among academia, research & development, technocrats and industries to reap the benefits of novel researches & allied modifications. With this in view Nagpur Chapter of the Society started webinars since 4th of July, 2020 with four talks on PANDEMIC PERCEPTIVENESS IN THE POST COVID-19 WORLD by eminent speakers with expertise par excellence in the respective fields.

Joint Convenors

Dr. Kanungo Vice Chairman, Nagpur Chapter, ISAS

Dr. Shinde AMD (former)

Dr. Suraj Butoliya Assistant Professor RCOEM Nagpur
